

Team-discussion prompts: ChatGPT for all

All Teams

1. Leverage ChatGPT to build an innovative project. Be creative!
2. In addition to ChatGPT, your project should include at least 2 out of the 6 topics in the cycle.
3. Highly recommended to also use other tools and packages that we have learned throughout the course.
4. Be prepared to give a 3-5mins short presentation on your project by sharing:
 - I. The goal of the project.
 - II. How ChatGPT helps you reach this goal.
 - III. Quick review of your code and highlight any interesting key components.
