

Team-discussion prompts: All about Transformers

All Teams

1. Select any **4 out of the 8 components** on transformers from the cycle and include **at least one component on attention**.
2. For each component, research and discuss the following:
 1. What role does the component play in the transformer setup?
 2. What can go wrong if the component is missing?
 3. What are some possible design choices for this component (e.g. number of heads for multi-head self-attention)?
